

Die besten Jobs für Fach- und Führungskräfte

Homologation Test Engineer (m/w/d)

Experts. Talents. Personalities

Simply excellent prospects! We are a brand of I. K. Hofmann GmbH and offer the best jobs for specialists and executives at renowned companies.

On behalf of our client, a globally leading automotive technology company, we are looking for a Homologation Test Engineer (m/f/d) at the Kronach location.

Responsibilities

- ▶ Test campaign management for projects with global scope
- ▶ Planning test material and samples for all the certification related test activities
- ▶ Preparation of test tools, including scripting SW (ie Python, CAPL), wiring harnesses, material procurement
- ▶ Certification pretest (test setup validation before starting at remote lab)
- ▶ Remote and onsite support on official homologation tests at certification labs
- ▶ Preparation of test instructions for certification labs in English

Your qualifications

- ▶ Fluency in English language
- ▶ Electronics HW and SW with hands on capabilities
- ▶ Product documentation understanding (ie Schematic, BOM, PN, and related tools (ie SEM))
- ▶ Electronic boards/harnesses rework (ie soldering/desoldering/substituting components)
- ▶ Lab instrumentation usage (ie oscilloscope, mobile network and GNSS simulator, spectrum analyzer)
- ▶ Testing flow concepts (test plan, Jira tickets, remote logging)
- ▶ Car Diagnostics concepts (coding, CAN simulation, CTCs, other)
- ▶ Problem solving skills
- ▶ Continuous improvement attitude
- ▶ Supplier management experience
- ▶ Excellent autonomy and teamwork
- ▶ Python, CAPL, or other scripting/programming languages are a plus
- ▶ Customer Interfacing capability are a plus
