## Material Handling Manager (m/f/d)

**Experts. Talents. Personalities.**

Shape Tomorrow's Logistics!

For our globally significant industrial partner, we are searching for

**Material Handling Manager (m/f/d) at the Altbach location.**

*Here you'll have the opportunity to pioneer innovative approaches to material management, leveraging advanced technologies and strategic partnerships to stay ahead of the curve. By collaborating with cross-functional teams and external stakeholders, you'll position our organization as a leader in the evolving world of logistics.*

### Your tasks:

- › Receive, control, and manage site materials and equipment
- › Coordinate material handling according to project requirements and schedules
- › Implement shipping and storage procedures for efficient material management
- › Ensure compliance with quality and safety standards in material handling
- › Lead on-site material management team if necessary
- › Manage incidents of damage during transportation and initiate appropriate actions
- › Monitor and document all material movements and storage activities on-site

### Your qualification:

- › Bachelor's degree in Engineering, Logistics, Supply Chain Management, or a related field
- › Strong understanding of logistics and supply chain operations
- › Effective communication skills to coordinate with internal teams and external suppliers
- › Strong problem-solving abilities
- › Adaptability and flexibility to adjust to changing project requirements and priorities
- › Excellent English language skills; knowledge of German is a plus

### We offer:

- › Permanent employment contract
- › Competitive compensation
- › Flexible working hours and remote work options
- › Opportunity for career development and training
- › Great working atmosphere and a highly motivated team
- › Continuous support from a dedicated contact person
